HAVE A LARGE RANGE
OF PV SOLAR ENERGY
SYSTEMS TO MEET THE
ENERGY NEEDS OF
ANY BUSINESS, WHILE
PROVIDING THE BEST
SERVICE POSSIBLE**

KEY GOALS & PRINCIPLES

- Endeavour to be at the cutting edge of renewable energy technology in an ever evolving industry
- Contribute to building a safe and sustainable industry that can provide future growth and employment in the renewable energy sector.
- To keep the public properly informed on the value and real viability of a solar grid connect system and how to ensure it effectively saves money for you or your business.
- Maintain strict product screening processes to secure safe and reliable customer investments.
- Supply the best quality products to provide the highest returns and peace of mind.
- Always provide quality time to customer enquiries to help them through the process, making it as easy and stress free as possible.
- To ensure all clients understand how to best utilize their system to ensure the highest returns
- To guarantee the highest standard of workmanship for all system installations

PRODUCTS

SolarWise Wagga employs a strict selection and screening process to guarantee we only supply market leading solar modules, inverters, and system components.

Through the supply of industry leading products and the application of the latest technology we can ensure your peace of mind and achieve the highest level of power efficiency, system reliability and safety.

Some of the more important values of our products are:

- Secure warranties backed by large and diverse companies
- Proven to operate consistently in Australian environmental conditions
- Superior low light performance
- Strict manufacturers testing procedures
- Proven performance and reliability
- Accessible and reliable after sales support

SERVICES

We take a holistic approach to increasing energy efficiency and provide a range of products and services which offer our clients every opportunity to reduce energy consumption and benefit from the savings.

- Grid Connect Solar Power Systems - Commercial, Residential, and Rural.
- Off-Grid Solar Power Systems
- Battery Energy Storage Systems
- Solar Hot Water
- Solar Powered Pumping Solutions
